

Q10041308 - Will the ARC-1224-8I work with Windows 2000?

ARC-12X4 does work with Windows 2000. But Windows 2000 is not officially support; it does not work with current Windows WHQL driver. You can download the driver especially for Windows 2000 in our ftp site, the beta folder.

ftp://ftp.areca.com.tw/RaidCards/AP_Drivers/Windows/Driver/

Unique solution ID: #1276
