

Q10031412 - What's the exact model# of Cache BBM (Battery Backup Module) for ARC-1225-8I RAID controller?

You can check the battery connector on your ARC-1225-8I to identify the correct battery cable. If the battery connector on the 1225 is white, this card uses 6120BA-T121-12G. If the battery connector on the 1225 is black, this card uses 6120BA-T121.

Unique solution ID: #1167
