

Q10061212 - In the long term I/O test, I had found disk hanging on only in the situation of Windows 8 or Windows 2012 with "muti-test-tools" using storeport driver 6.20.00.22 and new 6.20.00.23 . With SCSI PORT driver 6.20.00.22 everything works fine.

This bug has fixed by driver version 6.20.00.24.
