

Q10081106 - When I boot the OpenSUSE 11.4 xen kernel I got the following error:

>arcmsr6: dma_allow_coherent got error.

If you are using the kernel buildin driver, please visit our ftp site to download the latest driver source code. The buildin driver inquiry bigger DMA resource may result this error. The new driver code decreases the inquiry resource to avoid this error.

Unique solution ID: #1406
