

2018 to 2020

**Q10011110 - I have a 1880ix connected to 7
Crucial M4 128GB SSD's (0009 firmware) and I am
having issues getting the system to boot
normally. I use ARC1880ix-12 and crucial m4
512GB m4's firmware is 0001 or 0002 → OK and
0009 → cannot boot.**

It has fixed by ARC-1880ix firmware version date: 2013-1-3 or later.

Unique solution ID: #1423
