

**2018 to 2020**

**Q10021912 - I tried ARC-12x3/1880 firmware but got "invalid signature" while trying to update.**

Please double check the model name of your card. You can find the model name in manager console. If the system info shows the model name is ARC-1223, please take a screenshot on the system info page for us to identify the correct model name of your card.

Unique solution ID: #1805
