

2015 to 2017

Q10031112 - A customer complains the ARC-1680 performance on my NAS is too slow over 10G NIC. It was 700MB+/sec benchmarked it over webex.

Please adjust the "Volume Readahead" to "Aggressive" for video editing. The performance went up from 20 frames/sec to 24 frames/sec.

Unique solution ID: #1436
