

2015 to 2017

Q10011603 - For ARC-1883/ARC-1882/ARC-12x3 RAID Controllers, are the Linux drivers for RHEL 6.6 and 7.0 uEFI Aware? And, are the drivers signed with a trusted key for a Linux uEFI boot with Secure Boot enabled?

The ARC-1883/ARC-1882/ARC-12x3 RAID controllers support the Linux drivers for RHEL 6.6 and 7.0 uEFI Aware. You can make the drivers signed with a trusted key for a Linux uEFI boot with Secure Boot enabled.

Unique solution ID: #1589
