2018 to 2020
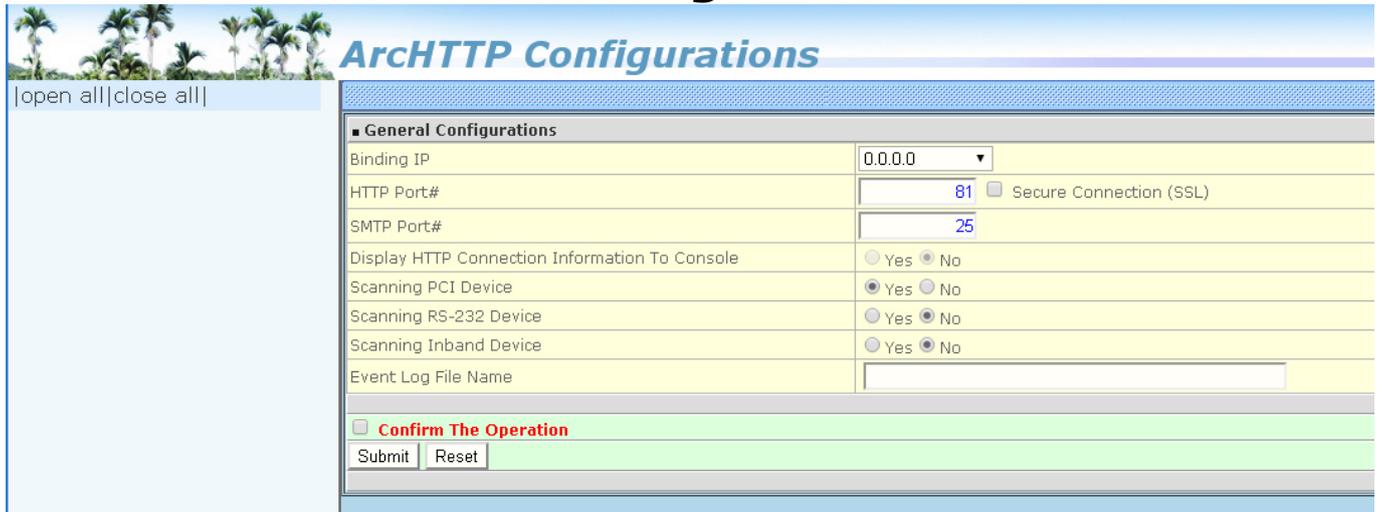

Q10041802 - Launch the ArcHTTP utility, there has nothing shown (blank) on the left column of the "ArcHTTP Configurations" screen.

ArcHTTP Configurations

|open all|close all|

■ **General Configurations**

Binding IP	0.0.0.0 ▼
HTTP Port#	81 ☐ Secure Connection (SSL)
SMTP Port#	25
Display HTTP Connection Information To Console	○ Yes ◉ No
Scanning PCI Device	◉ Yes ○ No
Scanning RS-232 Device	○ Yes ◉ No
Scanning Inband Device	○ Yes ◉ No
Event Log File Name	

☐ **Confirm The Operation**

Submit   Reset

The left column of the "ArcHTTP Configurations" screen is relative with the web browser javascript function or localhost ip address part of the trusted sites in web browser. JavaScript function may be disabled in your web browser. If you disable JavaScript, please enable Javascript in your web browser.

You can refer below link to enable the Javascript support.

https://www.enable-javascript.com/

If the localhost ip address wasn't part of the trusted sites in web browser, you need to add the localhost address for the controllers shown in web browser.
