

2018 to 2020

Q10041908 - Can you have a special firmware to disable the “Volume Encryption” and “SED” encryption?

From firmware version V156-20190730, Areca firmware has added the “DisblzEncrptonP” hidden function on the "Rescue Raid Set" to disable all volume encryption and SED features.

Unique solution ID: #1794
