

2014

Q10081112 - I install Microsoft Windows 7 in GPT mode with Areca ARC-1882i RAID volume on Asus P8Z68-V Pro, and I cannot boot into Microsoft Windows 7.

Please update the ARC-1882i legacy BIOS to EFI BIOS from Areca FTP or website.

On Asus P8Z68-V Pro BIOS: Advanced Mode, going into Boot, please refer below steps:

1. Interrupt 19 Capture → Enable
 2. PCI ROM Priority] → EFI Compatible.
