

Q10021912 - I tried ARC-12x3/1880 firmware but got "invalid signature" while trying to update.

Please double check the model name of your card. You can find the model name in manager console. If the system info shows the model name is ARC-1223, please take a screenshot on the system info page for us to identify the correct model name of your card.

Unique solution ID: #1805
