

**2021 to 2024**

**Q80032412 - macOS is saying that: "Legacy System Extension - Existing software on your system loaded a system extension signed by "Areca Technology Corporation" which will be incompatible with a future version of macOS.**

**Contact the developer for support."**

Apple planes to deprecate kernel extensions (kext) and system extensions in future, Areca will prepare the new DriverKit extensions (dext) driver when Mac system is ready for this change.

Unique solution ID: #2064
