

Q80041901 - We bought an Adapter from Startech (Thunderbolt 3 - to Thunderbolt 2) to connect Thunderbolt 2 (PC) with Areca 8050T3, but the system doesn't work.

This single direction adapter uses Thunderbolt and Thunderbolt 2 devices with your new Thunderbolt 3 computer only. It cannot support the new Thunderbolt 3 devices with your Thunderbolt and Thunderbolt 2 computer. The Apple's Thunderbolt 3 (USB-C) to Thunderbolt 2 Adapter lets you connect Areca ARC-8050T3 solutions to any of the PC/Mac with a Thunderbolt or Thunderbolt 2 port and Win 8.1/10 / macOS Sierra 10.12 or later.

Unique solution ID: #1865
