2014

Q10161404 - ARC-1883 has kernel panic on Ubuntu server 12.04 LTS with X9DRH-IF. In the kernel Call Trace it says about irq conflict.

This is an interrupt issue on linux kernel with ARC-1883. This issue has been fixed in linux source arcmsr-1.30.0X.18-20140417 driver version or later.
