## **Q40012212 - Did Areca JBOD support to safe shutdown if ARC-1883X card connects to 2 8-bay ARC-4038 enclosures?**

ARC-4038 JBOD enclosure has default enabled the "Connector Power Down Control" function, press the power on/off switch off does not turn off until no link status from the host side. The following condition is no link from the host side.

- (1). The host to which it is attached power down or
- (2). The SAS cable is disconnected from host.
