

2016 to 2020

Q80011402 - When I connect 8050 to ASUS Z87 deluxe/quad, 8050 will start up but then no response after scan all hard drive and nothing on the LCD front panel.

There is one compatibility issue on ArchHTTP utility with Thunderbolt 2 PC M/B bound ed

Intel utility. It has fixed by ArchHTTP V2.3.4-20140128 and later.

Unique solution ID: #1221
