

2016 to 2020

Q80011410 - I have the ARC-5026 plugged into the USB port of a CalDigit FASTA-6GU3 Pro. The ARC-5026 powers off but does not power on again when I power on the computer from sleep mode.

This is a compatible issue with ARC-5026 USB 3.0 and CalDigit FASTA-6GU3 Pro (using Fresco Logic FL1100 chip).

Unique solution ID: #1574
