

2016 to 2020

Q80011412 - I upgraded the ARC-5026 firmware to V1.52 2014-10-01 to resolve an issue with the fans being too loud. Fans are quiet now, but now I cannot mount drives via USB.

This issue has been fixed in firmware version 1.52 date: 2014-11-11 or later.

Unique solution ID: #1580
