

**2016 to 2020**

**Q80011703 - ARC-4607T2 is used client can see RAIDIX software 3.2 version FC-storage, LUN, but can't read LUN information.**

This issue happens on RAIDIX software version 3.2. There is no issue with upper versions. This compatibility issue is fixed and update ArcQFC-1.0.0-10.9-10.10-201700215.pkg or later to work around it.

Unique solution ID: #1658
