2016 to 2020

Q80011708 - My iMac (Retina 5K, 27 Zoll, 2017), macOS 10.12.5 the monitor stays black after wake up (power saving) with ARC-8050T3 attached.

It is a compatible issue with Driver - ArcMSR-1.3.9-20170427. You can roll the driver back to macOS default buildin driver or update to Driver - ArcMSR-1.3.9-20170810.

Unique solution ID: #1708
