

2016 to 2020

**Q80011903 - When trying to boot from Asrock
Z390/H370 Pro4 M/B and ARECA ARC-8050T3-12
get F/W DETECTED: **Unknown error** !!!!!.**

Disabling "Thunderbolt Boot Support" parameters from M/B BIOS Discrete Thunderbolt(TM) Support option or disabling the "BIOS Selection" from the ARC-8050T3-12 Advanced Configuration, error messages disappear.

Unique solution ID: #1867
