

2011 to 2015

Q80031403 - ARC-8050 manual says that the files of the firmware-update are labeled as ARC-8050NNNN.BIN, but the download files of the firmware package are labeled ARC-1882NNNN.BIN. Are these nevertheless the correct files?

ARC-8050 and ARC-8050T2 use same firmware package as ARC-1882, so your download firmware packages file are named 1882.

Unique solution ID: #1228
