2009 to 2011

Q10021006 - Are the Areca ARC-1680 series RAID adapters compatible with this chassis' backplane using the 6Gb/s SAS-2 expander?

The current standard 1680 firmware version 1.48 date:2010-01-04 does not support 6G SAS-2 expander, please use the firmware built date 2010-06-07 or later in ftp site.
