

**2011 to 2015**

**Q80011402 - When I connect 8050 to ASUS Z87 deluxe/quad, 8050 will start up but then no response after scan all hard drive and nothing on the LCD front panel.**

There is one compatibility issue on ArchTTP utility with Thunderbolt 2 PC M/B bound ed

Intel utility. It has fixed by ArchTTP V2.3.4-20140128 and later.

Unique solution ID: #1221
