

2011 to 2015

**Q10011407 - Is there a problem with a 4KN drive
or can I only use hard drives with 512E support
sectors?**

Firmware version 1.52 date: 2014-04-02 has supported 4KN drives, but you must make sure your OS also supports 4KN drives. Volumes created by 4KN drives will use same sector size as 4KN drives.

Unique solution ID: #1566
