

2021 to 2024

Q10032410 - In Windows 10, if the ARC-1883 has no volume, ARCHTTP v3.0.0 will not detect the ARC-1883 on NVMe mode.

A-This behavior only happens on Win10. ARC-1883 needs to have device on Lun0 for Win10 Storvme driver to open interface for Archttp. There is no this kind of limitation on Win11, Linux and FreeBSD.

Unique solution ID: #2049
