Q10081405 - Does ARC-1882X support XenServer 6.2?

XenServer 6.2 sp1 has build driver to support ARC-1882X. You can also refer following post to build an ARC-18XX series driver iso by your own.

<http://blog.host1.no/howtos/how-to-build-driver-iso-for-areca-arc18xx-series-for-xenserver/>

Unique solution ID: #1130
