Q10091412 - ARC-1883 reports all SSD as "failed" and not free when Adaptec ASR-71605Q formats Samsung 850 pro and erases the raid array again.

This is a bug of Samsung SSD 850 Pro firmware that can't response correctly SSD cache control from the host. Areca has bypassed this issue from firmware version 1.52 date: 2014-12-19 or later.

Unique solution ID: #1173
