Q10061503 - ArcSAP utility can't start because MSVCP100.dll is missing in Win2012R2.

You miss to install the latest Microsoft Visual C++ 2010 Redistributable Package. Since ArcSAP is 32-bit (x86) application, please download the Microsoft Visual C++ 2010 Redistributable Package (x86) from the below link and install it.

For Microsoft Visual C++ 2010 Redistributable Package (x86):
