

2012

Q10011203- This customer has problem copying files from a pass through drive to raid under ARC-1880i. Copying between raid sets is working fine.

It is a bug for firmware before 1.49 2011-08-02. Please update to version 1.50 to solve the pass-through issue.

Unique solution ID: #1338
