

2020

Q40012003 - For ARC-8608-4 32G FC D.B, 16Gb SFP detect and working normal but 8Gb SFP detect unknown.

Qlogic 16Gb/32Gb Fibre Channel chip supports speed and SFP as below.

16Gb Chip==> Speed: 16G/8G/4G SFP:16G/8G only

32Gb Chip===>Speed 32G/16G/8G SFP:32G/16G only

ue. If the Read / Write cache is separated, they will not interfere with each other.
