

2019

Q60021907 - The ARC-SAP email is working officially using Office365 (Microsoft) for the notification.

The Office365 or Outlook needs to use the "STARTTLS" not "SSL". Arc-SAP has added a drop-down box to choose the "STARTTLS" or "SSL" from version 1.50 date: 2019-07-12.

Unique solution ID: #1846
