

2016 to 2020

Q60011706 - Firmware V1.54 2016-05-13 Alarm By Mail function sends incorrect day of week.

It is a time info bug, and causes the Web mail abnormal day of week. This issue is fixed and updates firmware version 1.54 date 2017-04-27 or later to workaround it.
