

Q10080906 - Are there drivers in VMware ESX 3.5.x for any of the Areca SAS RAID adapters? I run a test VMware ESX instance in my lab, and I would like to buy one of your adapters, but I need to ensure that it will be functional.

Our VMware ESX 3.5 driver had been certified already, please visit our ftp site to download the needed driver, same driver package can be used for both SATA and SAS RAID adapters.

Unique solution ID: #1535
