

**2024**

## **Q90052411 - Under Areca NVMe emulation mode, it needs to revise Timeout and DPC Watchdog Time after Windows installed.**

After windows is installed, add registry to

<a> Set iotimeout for NVME to 90 seconds (original value is 10 seconds)

<b> Set DpcWatchdogPeriod to 120 seconds (original value is 20 seconds)

<c> use NVMEModeKey.reg

NVMEModeKey.reg can download from below link:

[https://www.areca.us/support/s\\_windows/nvme/NVMEModeKey.reg](https://www.areca.us/support/s_windows/nvme/NVMEModeKey.reg)
